R. S. CHAUDHRI, Under Secy.

New Delhi, the 17th February 1967

S.R.O. 82.—The following bye-laws for the regulation, conservation and protection from injury, contamination of trespass of sources and means of public water supply, construction and maintenance of connections with water works and the regulation of all matters and things relating to the supply and use of water including the recovery of charges therefor and prevention of evasion of the same within the Cantonment of Pachmarhi, made by the Cantonment Board Pachmarhi, in exercise of the powers conferred by clauses (32), (33) and (34) of section 282

and section 283 of the Cantonments Act, 1924 (2 of 1924), are hereby published for general information, the same having been previously published and having been approved and confirmed by the Central Government as required by sub-section (1) of section 284 of the said Act, namely:—

Bye-laws for the regulation, conservation and protection from injury, contamination or trespass of sources and means of public water supply, construction and maintenance of connections with water works and the regulation of all matters and things relating to the supply and use of water including the recovery of charges therefor and prevention of evasion of the same in Pachmarhi Cantonment.

1. In these bye-laws—

- (a) 'Board' means the Cantonment Board Pachmarhi.
- (b) 'distribution pipe' includes any water main under the control of the Board laid in the roads for the purpose of supplying water within its jurisdiction.
- (c) 'Form' means a form appended to these bye-laws.
- (d) 'holding' means land held under one title or agreement and surrounded by one set of boundaries:

Provided that two or more adjoining holdings forming part and parcel of the site or premises of a dwelling house or place of trade or business shall be deemed to be one 'holding'.

- (e) 'Service pipe' means the pipe which is connected to the distribution pipes under the control of the Board for the purposes of leading water to the premises of buildings or lands for domestic purposes.

2. No person shall bathe or wash any animal, clothes, wool, leather, skins, utensils or any other thing with water drawn from any public stand-post or hydrant or use such water for building purposes or otherwise wilfully cause waste thereof.

3. No person, other than a person duly authorised by the Board for the purpose shall open or in any way interfere with any pipe, valve, plug or other fittings appertaining to any public water supply installation except for the purpose of drawing water for bona fide use.

4. No person shall wilfully waste or cause or allow to be wasted any water from any pipe, public stand-post, hydrant, valve or fitting.

5. No person shall tamper with any water tap, stand-post or hydrant belonging to the Board so as to cause any damage to the mechanism or working of such tap, stand-post or hydrant.

6. All water obtained from a public stand-post or hydrant shall be carried therefrom in clean vessels or other utensils.

7. The Cantonment Board may, subject to the provisions contained in Chapter XIII of the Cantonments Act, 1924, permit the owner or occupier of any building or land to connect such building or land with the public water supply mains for domestic use or for commercial purposes.

8. (1) It shall be at the discretion of the Board to lay water supply distribution mains in such streets or places as it may consider proper and to give connections either for domestic or non-domestic or commercial purposes to such places, buildings, lands premises as it may consider feasible or proper, due regard being had to the maintenance of an efficient and economic water supply.

(2) The decision of the Board with respect to any matter referred to in clause (1) shall be final.

9. An application for a house connection shall be made in Form I and shall be accompanied by duplicate copies of a plan of the building to be connected, drawn to scale of not less than one metre to one centi-metre showing clearly in red, the lines of all pipes and the position of all fittings proposed to be laid and fixed.

10. No work in respect of house connection shall be begun until the application therefor has been sanctioned and the applicant concerned has paid to the Board such charges as may be fixed by the Board from time to time for the establishment, by them or through their agency, of communication from, and

connections with, mains or pipes for the supply of water or for meters or other appliances for testing the quantity or quality thereof supplied under section 232 of the Cantonments Act, 1924.

11. Not more than one connection for the supply of water for domestic purpose shall be permitted in respect of any one holding.

12. (1) Connections with the distribution pipes of the Board may be made—

(a) by the Board, or

(b) by a plumber approved by the Board.

(2) The Board shall not construct any connection with a distribution pipe on behalf of any person unless such person—

(a) specifically requests the Board to make such connection in the application submitted under bye-law 9, and

(b) deposits with the Board such sum as the Board estimates to be the cost of making the proposed connection plus 10 per cent of the said sum to cover supervision charges.

13. All pipes shall be of galvanised iron and of a make approved by the Executive Officer and capable of withstanding such pressure as may be exerted by a column of water 60 metres high.

14. All fittings like taps, ferrules and stopcocks shall be of a make certified by the Executive Officer to be of quality similar to that of the standard sample kept in the Office of the Board and must be stamped by an authorised officer of the Board before being used. The meter shall, in all cases, be supplied by the Board on payment of the cost therof as required by bye-law 10. Once a meter has been fixed it shall be placed under lock and key or under a seal which shall be kept under the custody of an officer of the Board (to be appointed by the Executive Officer) and any repair to, or maintenance of, the said meter shall thereafter be undertaken by the Board. Unsatisfactory meters shall be replaced at the cost of the consumer.

15. The service pipes shall comprise of the following fittings, namely:—

(a) a brass or gunmetal ferrule inserted in the distribution pipe,

(b) a galvanised iron communication pipe,

(c) a stopcock and surface box,

(d) pipes from the stop-cock to the tap,

(e) a meter, meter chamber and surface box.

16. The work, whether done by the board or by a plumber approved by the Board, shall be executed under the supervision of an Officer appointed by the Board, and no connection to the distribution pipe shall be made until the work has been examined and approved by that officer. The connection to the distribution pipe shall be made at the place and time selected under the orders of the officer.

17. The owner or occupier of any holding in respect of which a connection has been made under these bye-laws shall be liable to pay at the rate of Rs. 2.62 Paise for every 4500 litres of water consumed.

18. In respect of any holding mentioned in column 1 of the table below, the diameter of the ferrule and the number of taps shall be those specified respectively in the corresponding entries in columns 2 and 3 thereof.

TABLE

Annual valuation of holding	Diameter of ferrule not exceeding	Number of 1.25 cm taps not exceeding
1	2	3
Below Rs. 150.00	30 cm	1
From Rs. 150.00 to Rs. 299.00	45 cm	2
From Rs. 300.00 to Rs. 499.00	60 cm	3
Above Rs. 499.00	75 cm	4

Provided that—

- (i) additional taps may be allowed and the size of ferrule increased in special cases with the previous approval of the Executive Officer; and
- (ii) two 1-25 cm. taps may be replaced by one 1-8 cm taps.

19. The cost of the connection referred to in sub-clause (b) of clause (2) of bye-law 12 shall include the cost of supplying and fixing the fittings and parts described in bye-law 15 and also the cost of such alteration in or repairs to, roads, drains, water mains or pipe and the cost of such other works as may be necessitated by or result from the making of such connection but shall not include the supplying and fixing of a meter for which payment shall separately have to be made as provided under bye-law 10.

20. (1) When any connection has been made and completed otherwise than as provided under sub-clause (a) of clause (1) of bye-law 12, the applicant shall give notice in writing to the Board in Form II for the inspection of the connection.

(2) An officer appointed by the Board in that behalf shall then inspect the work and shall if satisfied that the work has been executed in accordance with these bye-laws, send a certificate to that effect to the Executive Officer in Form III. If, not being so satisfied, he does not send a certificate as aforesaid, he shall state his reasons in writing for not sending it, recording his objections in respect of the work so inspected and shall supply a copy of the same to the applicant to enable him to meet the objections.

(3) The applicant shall, after meeting the objections, apply for a fresh inspection in the same manner as provided in clause (1).

21. If a connection sanctioned to be constructed by engaging an approved plumber is not completed within six months of the date of sanction, the connection shall not be given until a fresh sanction has been obtained for its construction in the manner provided in bye-laws 9 and 10.

22. No tap shall be installed at a height less than one metre above ground level.

23. A stop-cock shall be capable of adjustment and shall have the same water way as the communication pipe and shall be placed as near as practicable to the point where that pipe enters the premises to be supplied with water. It shall be built into a brick chamber provided with a cast iron cover of approved make.

24. The key of the surface box shall remain under the control of the Board.

25. Every meter shall be read monthly by an officer authorised by the Board in that behalf and such officer, before he makes his first visit to any house, shall give to the occupier thereof at least 48 hours notice of such visit. Such notice shall specify a period of three hours during which the visit will be made. Any further visit that may be necessary may be made on the same day and within the said period without any fresh notice.

26. The Board may ordinarily permit installation of storage tanks of capacity not exceeding 700 litres; but further increase in the capacity of tanks may be permitted by the Board only in special cases and at its discretion.

27. The Executive Officer or any person acting under his authority may, subject to the provisions of section 224 of the Cantonments Act 1924, enter into any house or on premises supplied with water by the Board for the purpose of inspection of the water misused or contaminated after giving reasonable notice to the owner or occupier of such house or premises.

28. Every house owner or occupier shall afford all reasonable facilities for the inspection referred to in bye-law 27 and where such inspection could not be carried out due to any obstruction offered by that person, the water supply shall be liable to be cut off.

29. All charges payable under these bye-laws shall be recoverable from the owner or occupier of the buildings or land.

30. The Board shall be at liberty, in its discretion, to stop or reduce the supply of water or impose restrictions on the supply either in respect of quantity or hour of supply or regulate the choice of the premises to, or purposes for, which supply is made and the Board shall not be liable for any damages on account of any of the aforesaid acts.

31. The charge for the water consumed in any particular month shall be payable on or before the 15th day of the month next following that month. If there is any default in the payment of water charges by the consumer consecutively for two months, his water connection shall be cut off.

32. Any complaint as to the correctness of the reading or other defects in a meter shall be made by the person affected within a week of taking of the reading and where there is a dispute as to the correctness of the reading, the complaint shall be accompanied by a deposit of Rs. 5.00 only. No complaint made after the said period and not accompanied by the requisite deposit shall be entertained. The deposit shall be refunded if, on investigation, the meter is found to record incorrect reading exceeding 3 per cent or is, in the opinion of the Executive Officer, found to be otherwise defective; and in all other cases the deposit shall be appropriated by the Cantonment Board towards the cost of services of its officers and servants in this respect. The decision of the Executive Officer in this behalf shall be final.

33. Where a meter is found to give incorrect reading and is out of repair for any period exceeding one week, the consumption recorded during the corresponding period during the year immediately preceding, or where such record is not available, such period as the Executive Officer considers most suitable shall be taken to be the basis for working out the quantity consumed and the quantity so arrived at shall be deemed to be the actual consumption and a decision of the Executive Officer in the matter shall be final.

34. **Penalty.**—If any person contravenes any provision of these bye-laws he shall be punishable with fine which may extend to fifty rupees and in the case of a continuing contravention, with an additional fine which may extend to ten rupees for every day during which such contravention continues after conviction for the first such contravention.
